

The Places we love ...

Your group is going to look at the _____ parts of the school you feel most comfortable in and the areas you think look the best - the bits you enjoy and are proud of, the places where your favourite lessons happen or where you get the most HELP from.

Task 1 - with the camera.

In your group, you are going to take photos of the areas of the school you would like to include in your project - make sure you **SHARE** the camera - everyone needs to get a chance to take photos of the areas they want to write about.

Task 2 - when the photos are printed.

You need to choose no more than 10 photos which your group are going to write about

Task 3 - what do the photos show?

Stick your chosen photos onto card and annotate or write about them ... to annotate a photo you need to write labels on in and **EXPLAIN** why the things you have labelled are important and what they show.

Task 4 - what does your project show?

One or two people in your group need to write a little report showing overall what your photos show

- Do girls and boys like different areas?
- Are there parts of the school you don't go to?
- Did your photos show that some parts of the school are better?

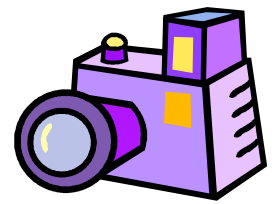

The places we spend time in

Your group is going to look at where year 7s spend their time when they're not in lessons – think about where you go at break time and lunch time, which toilets you like to use and other spaces you like.

Task 1 – with the camera.

In your group, you are going to take photos of the areas of the school you would like to include in your project – make sure you **SHARE** the camera – everyone needs to get a chance to take photos of the areas they want to write about.

Task 2 – when the photos are printed.

You need to choose no more than 10 photos which your group are going to write about

Task 3 – what do the photos show?

Stick your chosen photos onto card and annotate or write about them ... to annotate a photo you need to write labels on in and **EXPLAIN** why the things you have labelled are important and what they show.

Task 4 – what does your project show?

One or two people in your group need to write a little report showing overall what your photos show

- Do girls and boys like different areas?
- Are there parts of the school you don't go to?
- Did your photos show that some parts of the school are better?

Could do better ...

We know the school isn't perfect but sometimes the teachers don't know the bits you don't like ...

Task 1 - with the camera.

In your group, you are going to take photos of the areas of the school you would like to include in your project - make sure you **SHARE** the camera - everyone needs to get a chance to take photos of the areas they want to write about.

Task 2 - when the photos are printed.

You need to choose no more than 10 photos which your group are going to write about

Task 3 - what do the photos show?

Stick your chosen photos onto card and annotate or write about them ... to annotate a photo you need to write labels on in and **EXPLAIN** why the things you have labelled are important and what they show.

Your project is going to be a little bit different because you are going to write a bit more about your study and it is going to be put together as a booklet / report.

This report is going to be given to Your Head Teacher and to the Student Council so that they know what areas your 7s don't like and so they know **WHY** ... then maybe we can do something about it and you can help to make your school a better place!
